

# BREAKOUT SESSION II

12:45PM - 1:55PM

## KEN HANES

Partner, *AGL Drones*

## The Business of Drones

In this session, Ken will discuss the use of drones in business. He will talk about the capabilities of drones, and the benefits that many companies are seeing as a result of using them. More importantly, Ken will address what it takes to use drones for business. Attendees will walk away understanding the difference between a drone hobbyist and a commercial drone pilot. He will touch on FAA requirements as well as state and local rules and laws regarding drones. And of course he

will display and discuss his “Lawyers Path To Revenue In The Drone Industry” so everyone understands the liability issues that exist when hiring a drone pilot, or using a drone in-house.

**Ken Hanes** is a partner at Colorado Springs based AGL Drone Services. He holds a private pilot license and a Remote Pilot Certificate for commercial drone operations. He is the director of membership services for UAS Colorado, and a founding member of UAS Professional Pilots. His company offers Above Ground Level (AGL) Drone Services, and corporate consulting to help companies incorporate drones into their operations effectively, safely, and legally.
